DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/18/08 has been entered.

Response to Arguments

2. Applicant's arguments with respect to claims 17-18 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 17 and 18 are rejected under 35 U.S.C. 102(e) as being anticipated by Proehl (6532589).

As for claims 17 and 18, Proehl discloses a schedule apparatus, comprising:

Means (RAM 51) for receiving electronic program guide (EPG) information (col. 5, lines 36-60);

means for creating a calendar and displaying the created calendar on a display device (Fig. 9; col. 7, line 62 – col. 8, line 30);

means for determining whether a date from said calendar has been selected (col. 8, lines 58-60);

means, responsive to a determination from the determining means that the date has been selected, for accepting an input of user schedule information in which a user is able to edit a personal event or events of the selected day (user edits broadcast events; col. 8, lines 58-60, lines 7-10) or causing said EPG information which comprises at least program guide information of the selected date to be displayed for accepting a viewing/recording schedule for a desired program or programs (col. 8, lines 30-60); and

means for controlling display of the schedule information of the user's personal event or events and schedule information of the program or programs to be viewed or recorded on said calendar (Fig. 9; col. 8, lines 10-30, col. 6, lines 15-21).
